JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

for, 64. Number cases discharged (recovered), 13; number died since last report, 2; total deductions, 15. Remaining under treatment at close of this report, 49. * * *

Respectfully,

A. R. BOOTH,
Acting Assistant Surgeon, U. S. M. H. S.

Smallpox in Roanoke, Va.

ROANOKE, VA., *February 2, 1900.*

SIR: In reply to circular letter of February 1, 1900, initialed "G. T. V.," I beg leave to report as follows: The records of this office show that from December 24, 1899, to date, there have been in this city 2 cases of variola and 12 cases of varioloid. The disease is of a mild type, and cases are all doing well.

Respectfully,

R. W. FRY,
President Board of Health.

Smallpox in Washington, Oregon, and Idaho.

SEATTLE, WASH., *January 31, 1900.*

SIR: I have the honor to report that smallpox is prevalent in many of the towns of eastern Washington, Oregon, and Idaho. Spokane has had over 75 cases. It is of a very mild type and very few deaths have been reported.

Respectfully,

JAS. B. EAGLESON,
Acting Assistant Surgeon, U. S. M. H. S.

Smallpox in West Virginia.

JANUARY 31, 1900.

SIR: Smallpox in West Virginia, in the counties of Fayette, McDowell, Mingo, Gilmer, Upshur, Lewis, Harrison, Calhoun, Monongalia, and *suspects* quarantined in several other counties in the State.

The disease seems to have been brought in from the several contiguous States, and striking at far distant points of the compass, in fact it is feared will infect every county in the State.

Am unable to report at this time the number of cases of smallpox in the several counties where now prevailing, but aggregating something over 100. Will report later.

Respectfully,

A. R. BARBEE, M. D.,
Secretary State Board of Health, West Virginia.

NOTE.—There is a daily demand for smallpox literature from every portion of our State, none so sought as your "Reprint" of October 20, 1899, "Plan of organization for suppression of smallpox," etc., and your "Supplement" of January 6, 1899, "Précis upon the diagnosis and prevention of smallpox."

Those you so kindly sent of late date have been disposed of, and still the demand daily comes for them.

The number distributed has saved me much time and labor, and has resulted in much good. Would like very much, indeed, to have a goodly increased supply, for I seriously apprehend that our whole State will be overrun with the loathsome disease ere the end comes.

Respectfully,

A. R. BARBEE, M. D.

Smallpox in Wisconsin.

MILWAUKEE, WIS., *January 24, 1900.*

SIR: I have the honor to report 4 cases of smallpox, 1 case at Mauston, and 3 cases in the town of Lemonweir. Origin, first case came
